Safety Data Sheet Crystal Violet, 1% Aqueous

Section 1 - Chemical Product and Company Identification

 SDS Name: Crystal Violet, 1% Aqueous
 Catalog Numbers: SO-316, A-105-1, A-106-1, MA-300-1
 Company Identification: Transene Company, Inc., DBA ROWLEY BIOCHEMICAL, Inc. 10 ELECTRONICS AVENUE DANVERS, MA 01923
 For information, call: 978-739-4883
 Emergency Number: 800-424-9300
 For CHEMTREC assistance, call: 800-424-9300

Section 2 - Hazards Identification

GHS Classifications

H319-Serious eye damage/eye irritation: 2A H351-Carcinogenicity: 2 H401-Hazardous to the aquatic environment, acute hazard: 2 H411-Hazardous to the aquatic environment, long-term hazard: 2

1% of the mixture consists of ingredients of unknown acute dermal toxicity.1% of the mixture consists of ingredients of unknown acute inhalation toxicity.

Pictograms or Hazard Symbols and Hazard Statement(s):

Signal Word: Warning

Hazard Statements:

H319-Causes serious eye irritation H351-Suspected of causing cancer H401-Toxic to aquatic life H411-Toxic to aquatic life with long lasting effects

Precautionary Statements:

P201-Obtain special instructions before use.

P202-Do not handle until all safety precautions have been read and understood.

P264-Wash thoroughly after handling.

P273-Avoid release to the environment.

P280-Wear protective gloves/protective clothing/eye protection/face protection.

P305+P351+P338-If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P308+P313-If exposed or concerned: Get medical advice/attention.

P337+P313-If eye irritation persists: Get medical advice/attention.

P391-Collect spillage.

P405-Store locked up.

P501-Dispose of contents/container in accordance with local/regional/national/international regulations.

Section 3 - Composition, Information on Ingredients

CAS#	Chemical Name	Percent
548-62-9	Crystal Violet	1 w/v
7732-18-5	Water	balance

Section 4 - First Aid Measures

Eye Exposure: In case of contact with eyes, flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Seek medical attention.

Dermal Exposure: In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. Seek medical attention.

Oral Exposure: If swallowed, seek immediate medical advice. Do not induce vomiting. Rinse mouth with water and drink small quantities of water (stop if the exposed person feels sick as vomiting may be dangerous).

Inhalation Exposure: If inhaled, remove to fresh air. If breathing becomes difficult, call a physician.

Section 5 - Fire Fighting Measures

General Information: As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. During a fire, irritating gases may be generated by thermal decomposition or combustion.

Extinguishing Media: Use dry chemical, carbon dioxide, dry sand, water spray, or alcohol-resistant foam.

Hazardous Combustion Products: Carbon oxides, nitrogen oxides, hydrogen chloride gas, hydrogen chloride, irritating and toxic fumes and gases.
Flash Point: Not available
Autoignition Temperature: Not applicable
Explosion Limits, Lower: Not available
Upper: Not available
NFPA Rating: (estimated) Health: 2; Flammability: 0; Instability: 0

Section 6 - Accidental Release Measures

Procedure(s) of Personal Precaution(s):

Wear personal protective equipment. Do not ingest or inhale. Do not get on skin or clothing. Do not get in eyes. Ensure adequate ventilation.

Methods for Cleaning up: Absorb with sand, earth, or vermiculite. Carefully sweep up and containerize for proper disposal. Do not release to the environment. Do not release to drains.

Section 7 - Handling and Storage

Use care when handling. Wear personal protective equipment. Wash thoroughly after handling. Ensure adequate ventilation. Do not ingest or inhale. Do not get on skin or clothing. Do not get in eyes. Store in a tightly closed container in a cool, dry, and well-ventilated area. Light sensitive. Keep away from incompatible materials.

Section 8 - Exposure Controls, Personal Protection

Engineering Controls: Use explosion-proof ventilation equipment. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits.

Personal Protective Equipment

Eyes: Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Skin: Wear appropriate protective gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respirators: A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements or European Standard EN 149 must be followed whenever workplace conditions warrant a respirator's use.

Exposure Limits:

Chemical Name	ACGIH - TLV	NIOSH - IDLH	OSHA - Final PELs
Crystal Violet CAS#548-62-9	Not listed	Not listed	Not listed

Physical State: Liquid **Appearance:** Dark purple **Odor:** Odorless **Vapor Pressure:** Not available Odor Threshold: Not available Vapor Density: Not available **pH:** Approx. 2.6 **Relative Density:** Not available Melting point/freezing point: Not available **Solubility:** Soluble in water Boiling Point: Not available Flash Point: Not available **Evaporation Rate:** Not available Flammability (solid, gas): Not available Partition coefficient: n-octanol/water: Not available **Autoignition Temperature:** Not applicable **Decomposition Temperature:** Not available Viscosity: Not available Specific Gravity/Density: Not available

Section 10 - Stability and Reactivity

Chemical Stability: Stable under normal temperatures and pressures. Exposure to light can contribute to instability.

Conditions to Avoid: Incompatible materials, direct sunlight, and excess heat. **Incompatibilities with Other Materials:** Strong oxidizing agents, strong acids, and strong reducing agents.

Hazardous Decomposition Products: Carbon oxides, nitrogen oxides, hydrogen chloride gas, hydrogen chloride, irritating and toxic fumes and gases.

Section 11 - Toxicological Information

CAS#548-62-9 Crystal Violet: RTECS#: B09000000

LD50 Oral: 420 mg/kg (rat) LD50 Dermal: Not available LC50 Inhalation: Not available

Carcinogenicity: Crystal Violet CAS#548-62-9 is not listed by NTP, ACGIH, or OSHA. Crystal Violet is listed by IARC (Group 2B, Possibly Carcinogenic to Humans) and California Prop. 65 as a carcinogen.

Information on the likely routes of exposure: Routes of entry anticipated: oral, dermal, inhalation, and eye.

Epidemiology: Not available. Teratogenicity: Not available. Reproductive Effects: Not available. Developmental Effects: Not available. Neurotoxicity: Not available. Mutagenicity: Not available. Specific Target Organ Toxicity, Single Exposure: Not available. Specific Target Organ Toxicity, Repeated Exposure: Not available.

Symptoms associated with exposure: Causes serious eye irritation. Suspected of causing cancer. Eye contact may result in pain, watering, redness. Overexposure may cause nausea, headache, vomiting.

The toxicological properties of this material have not been thoroughly investigated.

Section 12 - Ecological Information

Ecotoxicity: Do not release to the environment. Do not release to drains. Toxic to aquatic life. May cause long-term adverse effects to the environment.

CAS#548-62-9 Crystal Violet:

ErC50, freshwater algae: 0.2-0.8 mg/L 72h static (pseudokirchneriella subcapitata)(green algae) EC50, water flea: 0.24-0.5 mg/L 48h static (daphnia magna) LC50, freshwater fish: 0.13 mg/L 96h (pimephales promelas) (fathead minnow)

Persistence and degradability: Not readily biodegradable.Bio-accumulative potential: Not available.Mobility: Will likely be mobile in the environment due to its water solubility.

Section 13 - Disposal Considerations

DISPOSAL: Dispose of in accordance with all federal, state, and local regulations.

Section 14 – Transport Information

DOT Non-Regulated Section 15 - Regulatory Information

Canada Regulatory Information

WHMIS Classification: This product has been classified in accordance with the hazard criteria of the CPR, and the SDS contains all the information required by the CPR.

Section 16 - Additional Information

SDS Creation Date: 1/8/2010 **Revision #1:** 9/19/14 YM **Revision #2:** 7/30/15 **Revision #3:** 8-15-18 **Revision #4:** 2-2-22 **Revision #5:** 7-24-23
